We cordially invite you to the first Portuguese-Czech Design Market, which will be the official part of the jubilee 10th edition of the portuguese culture festival [Lusófona](#) celebrating music, theatre, dance, film, design and gastronomy from 22.6. until 24.6.2017 in cooperation with the festival [United Islands of Prague](#).

[Bohemia Design Market](#) in cooperation with [Instituto Camões em Praga](#), will present during the festival [Lusófona 2017](#) selection of the contemporary Portuguese and Czech independent design. On the 23.6. at the [Tiskárna na Vzduchu](#) and 24.6. at the festival [United Islands](#) – Karlínské náměstí.

From the portuguese designers you can look forward to see the original products from young design studio [O João e a Maria](#) , which is also part of the project [OFF PORTUGAL](#) with their product [CMYK](#). At the moment they work on their new project [360° UNDER WATER](#) , where they have created a ceramic 3D printer which moves with the force of water through a watermill, activating at the same time a potter's wheel and a extruder that prints ceramic containers.

[Margarida Fabrika](#), a portuguese brand of ceramics, created by the designer Margarida M. Fernandes since 2010. Margarida's work has been inspired, most of the time, in the kitchen atmosphere and in all that is relatively to this basic need of life, food and cooking. Her interest in collecting objects from the past, has influenced and enriched her craft production.

From interior design we will present brand [SUGI](#) based in the Azores. Their focus is mainly to make frames with the best woodworking technichs and their greatest concern is the origin of the wood they use. Mix aesthetics with etics its their ultimate goal.

[Barru Pottery](#) creates natural organic ceramics with modern design, where everything is handmade by local artisans. [Barru Pottery](#) has born in Redondo, Alentejo that has always been land of potters, we are a young pottery comitted to continuing the art of handmade ceramic for tableware and dinnerware with a new soul and new design, tailored to demands of modern life.

You will be pleased with the authentic illustrations and accessories from recycled paper from the brand [Purple Pineapple Design](#) , where their passion for stationary and illustration comes together. They are a team of two designers who started out by creating small notebooks with illustrated covers, made out of recycled paper. Today they own a small company based in the sunny coast of Lisbon, and besides the stationery items they also design logos and create wedding imagery.

[Nerikan](#) was born with the love of Ana Neri - artist, and Raphael Redkan - manager, and combines influences and traditional techniques from all around the world, carrying their history, nature and local culture. The collection of their accessories was designed specially for the Lusófona 2017, to spread portuguese culture, mainly the sea based communities and portuguese language.

From the czech original and independent design we will present crystal glass carafes from [Lucie Nepasicka](#) , there will be original jewellery from [Petra Hamplova](#), [Sylvie Majerova](#), a Alena Heinrichova creating under her brand [byAdrianet](#).

You can also see unique vinyl works from [Ivan Jurečka](#) and slow fashion brands [K.BANA](#) and [Košilela](#).

Vision of the project [Bohemia Design Market](#) is support and offer more possibilities of presenting czech and foreign independent creativity, the interconnection of talented artists, designers and interesting projects. Encourage meaningful meetings and establish the international cooperation.
